After atracking the Jews, Negroes, Catholics Greeks and all foreigners generally in a mix vie and scurrious manner, J. Or course such utterances could only be made by some poor misgaided fanatic who knows nothing about prayer nor the Christian religion.

ONE-HUNDRED AND TWENTY THOUSAND VOTES.

As we count the one hundred and twenty thousand votes which the Negro men and women will cast in this State in November, for and during the next most of the little this vote will now.

After a careful study of the situation, we have come to the case of the composition of which others have arrived long ago—and that is, the lack of proper leadership. The trouble with the leadership is the year as a rule. "Banjup the case of the proper leadership the trouble with the leadership is the year as a rule. "Banjup the war arrived long ago—and that is, the lack of proper leadership. The trouble with the leadership is the year as a rule. "Banjup the war arrived long ago—and that is, the lack of proper leadership. The trouble with the leadership is the year as a rule. "Banjup the war are told." These hand picked leaders owe their allegiance to the bosses, and the interests of the people are soon forgotten. These hand picked leaders ow their allegiance to the bosses, and they say only what they are told. Just suppose for a moment that under the proper leadership just a hundred thousand votes were cast for the real benefit of the group; not for aggrandizement of one or two individuals, or for a few minor jobs for a select few. But a hundred thousand votes were cast for the real benefit of the group; not for aggrandizement of one or two individuals, or for a few minor jobs for a select few. With a hundred thousand votes in the State, we should be able for the course most of our ills. Politics Rule The World. It is the science, and the state of government. If we are to appropriate it to our use and benefit we must study it, just as we would any other science, and the state of the world with the state of the state of

By all means, elect Brewster for the United States Senate. Jim Reed won't do.

Some of the Party leaders are no longer hiding the fact that, they are going to vote for Jim Reed, yet they tell the Negroes, you must be one hundred per cent Republican—some nerve.

KLAN IN THE WHITE HOUSE.

Of course it is against the laws of the Klan for any one to tell who their members are. They tell us they are in St. Louis and other sections of the country, but intimation points pretty strong at President Harding When one of the Imperial speakers declare that the Klan "has a member" in the White House. Surely it is up to President Harding to deny or affirm.

ONE HUNDRED PER CENT AMERICANS.

After listening to about 150 foreigness telling of their loyalty to this government before his court a few days ago, Judge Dyer took occasion to say that the one Negro who came, before his benor was the only one bundred per cent American who had come before him during the day.

Judge Dyer knows what he is talking about. That is not the first time he has passed-upon the Negroes loyalty. Remember the famous segregation decision.

In fact we have now of the fat jobs to miss as the thousands of others, as why should we worry or be alarmed?

Don't sit around and whine about what the other fellow is doing to you. A worm will turn. Get up and 'git.'

The political Campaign is now on. Don't sell your very souls for a few dollars. Money perishes, but the soul never does.
